How Often Do Customers Make Purchases?

How are customers distributed across customer Status?

How are customers distributed across different segments?

Revenue is significantly driven by inactive customers, while high-value customer activity is lower than expected, indicating a retention gap and reactivation opportunity.

Which customer segments are most valuable in terms of revenue contribution?

Customer Segment	Count of Customer Segment	Total Revenue
High Value Active	448	\$23,431,044
High Value Inactive	552	\$28,629,168
Low Value Active	1328	\$31,153,015
Low Value Inactive	2672	\$55,307,822

How does revenue performance vary across segments each month?
